

Rising Folk-Rock Singer/Songwriter SUZANNE VANRANDWYK Releases Timeless, Heartfelt Debut Album 'KISS ME AGAIN'

This **September 16th, 2022**, rising Austin-based singer/songwriter **Suzanne VanRandwyk** is set to release her anticipated debut album, ***Kiss Me Again*** — a bluesy, indie-folk, country pop-infused, Americana-leaning record that is set to become an instant classic. Timeless and catchy, the album's lead single by the same name, ***Kiss Me Again***, was released on **July 15th, 2022**.

With a sweet elegance that'll have you tapping your feet and singing along on every chorus, Suzanne's artistic and poetic power comes from her ability to write simple, relatable lyrics straight from the heart: ***"Kiss me baby, kiss me long and slow / The way you know, you know I like it... / And then, kiss me again."***

Loaded with soulful folk harmonies, country guitar riffs, bluesy banjo twangs, all tied together by Suzanne's yearning, intimate vocals that sing lyrics like diary entries, ***Kiss Me Again*** demands multiple plays. Track after track, you'll go on a journey of love, loss, nostalgia, heartache, and sorrow — with the singer/songwriter showcasing compassion and playfulness as each song unfolds.

An avid storyteller, Suzanne is influenced by personal experiences and hardships. She credits her late mother — who passed in March 2022 after a battle with cancer — for encouraging her to get in the studio and record her original music. Suzanne initially got her first guitar at age 13 but put music aside to serve in the military. Her singer-songwriter journey began later in life, and she has since gigged at venues across Central Texas and performed on live TV (NBC/KXAN).

"I write songs about strong emotional experiences because I want them to resonate with people who feel lost and alone, so they know there's someone else who shares what they feel. I like making people laugh, too. This album is really about life and getting through it all. When someone tells me my words resonated with them, that's the biggest reward."

Kiss Me Again was produced by Mandy Rowden. The album was recorded, mixed, and mastered at 6 String Ranch in Austin, Texas, by Matt Smith for Antica Records. Drawing comparison to works by folk-rock icons like Fleetwood Mac and Joni Mitchell, this stellar debut is not to be missed.

Kiss Me Again by **Suzanne VanRandwyk** will be available from **September 16th, 2022**.
